

# Simple Obedience

dog training made simple

## Services:

Simple Obedience offers a comprehensive set of services that provide optimal care for your pet from puppyhood through senior care.

## Private Lessons:

Your dog is part of your family and like you, is most comfortable and confident at home. This makes home the perfect place to train. If your dog learns to behave in a familiar setting, it is more likely that he will listen in unfamiliar surroundings.

At Simple Obedience, we offer personalized training in the comfort of your own home.

## Benefits of Private Lessons:

- Private lessons help you define what is acceptable in your home and establish appropriate boundaries for your dog.
- Puppy training, as early as 8 weeks, promotes the development of obedient behavior.
- Shy or unsocialized dogs can learn in a fear free setting.
- Training can be focused on behavior issues which are not easily addressed in a group setting.
- Private lessons provide the opportunity to take newly trained skills into a variety of settings to further enhance learning.
- Every member of the family can participate ensuring a clear consistent approach.
- Learning occurs best in a relaxed environment and is focused entirely on you and your dog.

## Pet Sitting:

Pet sitting services allow your beloved companion to stay in the comfort of their own home while you are away. Your pet (yes, we sit cats too!) will receive the care and attention they need with minimal changes to their routine which means less stress for both of you.

## Dog Walking:

Exercise is a critical component to canine health and well being. Dog walking offers you peace of mind knowing that your best friend is not all alone every day which can often lead to destructive behavior.

## Puppy Playcare:

Home away from home! Puppy playcare is a unique pet care alternative. Your puppy is cared for in my home and is loved like one of my own. This service not only offers undivided care and attention, it also offers endless training opportunities, socialization and playtime.

## Senior and Disabled Pet Care:

I truly love these amazing animals and offer compassionate nurturing care based on instructions you provide. I have partnered with Handicapped Pets and Eddie's Wheels to enhance the lives of disabled pets, providing you with pet care alternatives.

## Group Lessons:

These are not your typical obedience courses! At Simple Obedience we offer fun innovative ways to incorporate training into interactive social settings. Our classes are intentionally small to ensure you get the time and attention you need.
